Easy-PC 14 Update

Over 700 New Microcontroller Components have been added for Easy-PC V14

The Microcontroller library III contains over 700 new components. These include all the associated Schematic Symbols and PCB Footprints. The list below has been produced for existing users of this library to inform you of the changes introduced at Easy-PC 14.

Microcontroller Library Amendments

Library	Added	Mfr	Description
New libraries:			
Altera Cyclone	268	Altera	EPC1 and EPC2
Altera Stratix	601	Altera	EP1S to EP4S

The Micro 3 Library only works with Easy-PC version 13.0 and above and is not available for previous versions.
